Roberto Monteiro Lunardelli

Porto Alegre, RS, Brazil | +55 (51) 981386611 | robertolunayo@gmail.com

Objective

• Looking for companies outside of Brazil to expand my knowledge as a QA and my English.

Education

• Studying information systems at Unisinos.

Skills & Abilities

Automation

• 2+ years of experience working with JavaScript using the Cypress tool in tests in real applications.

• Experience working with Java using the Selenium tool in tests for personal projects.

• Experience working with Python using the Robot tool in tests for personal projects.

Database

• 2+ years of experience with SQL for testing in real applications.

API

• 2+ years of experience using Postman for testing in real applications.

Agile methods

• I have knowledge of the Scrum method and professional experience using tools such as

Jira.

Languages

• Portuguese as a first language

• Fluent English

Experience

• 07/2021 - Currently

I work as a Junior QA at SoftDesign, where I perform manual web testing and automated testing (Cypress) of both frontend and backend. I also write test scenarios in BDD format and report bugs and improvements to the tool. I have already participated in several version deliveries on a platform that is responsible for paying millions of reais (Brazilian currency) to suppliers and now we are migrating an application with an old stack

• 05/2023 – Currently

I work as a middle QA for the company Hogarth, where I work on the international IBM NY project, performing manual tests
